

PARENTESIT

arper

Parentesit

Designed by Lievore Altherr Molina, Parentesit offers comfort for contemporary shared spaces. A private space when you need it for collaboration or independent thinking, Parentesit is an acoustic wall module that reduces extraneous background noise and creates a space for concentration.

The bold, graphic forms are available in three shapes—a circle, a square or an oval—that speak to diverse environments and can be further customized with the addition of a speaker or ambient light. These geometric forms can stand-alone or be paired together for greater impact. The signature and elemental shapes of Parentesit complement Arper's clean, minimal language to create a visual element that is as functional as it is modern.

Designer

Lievore Altherr Molina, 2014

Lievore Altherr Molina was founded by Alberto Lievore, Jeannette Altherr and Manel Molina in 1990. Their humanist design approach is informed by the fundamental desire for pure, beautiful forms derived from the constraints of function, technology and context.

Distinguished by a multi-disciplinary method that engages furniture, interior, product, and package design, their work has been globally exhibited and acknowledged. They are the recipients the prestigious National Design Award (1999) in Spain where they practice and teach extensively.

Applications

- Home
- Cafeteria
- Restaurant
- Campus
- Library
- Board room
- Conference room
- Break-out area
- Waiting room
- Office
- Lounge
