Absorption Attenuation

Chubby

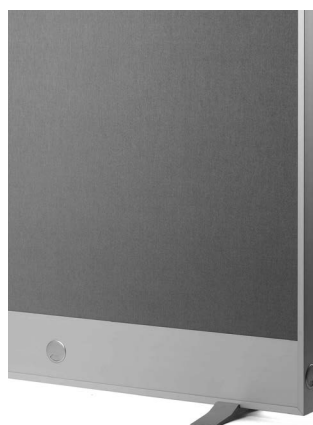

Chubby fungerar som en ljudbarriär då dess tjocklek är 88 mm. Det ger en ljudreduktion på upp till 15 dB! Med andra ord, en mycket bra absorber som dämpar ljudet från en sida till en annan.

Chubby serves as a sound barrier since its thickness is 88 mm. It provides a sound reduction of up to 15 dB! In other words, a great absorber to reduce noise from one side to another.

Ramen består av natureloxerad aluminium vilket gör produkten stabil men lätt. Kärnan är ljudabsorberande och skärmen kläs med tyg i valfri färg.

The frame consists of anodized aluminum, which makes the product solid yet light-weighted. The core is sound-absorbing and the screen is upholstered with fabric.

Skärmen har förberedd kanal för kabeldragning (inbyggd). Kabelföringshål i sockeln beställs som tillval. Ställfot beställs separat.

The screen has an integrated, prepared channel for cable (integrated). The cable hole in the socket to be ordered as an option. Adjustable foot is ordered separately.

Skärmen finns i flera varianter; med eller utan glas, med en eller flera paneler i samma skärm - Chubby alternativt Chubby Multi.

The screen is available in several varieties; with or without glass, with one or more panels in the same screen - Chubby alternative Chubby Multi.
