Seat height Continuous seat hei

Continuous seat height adjustment from 590 - 870 mm self-supporting safety gas spring with

protective cover

The 1+1 system enables you to adapt this chair for nearly every workplace scenario.

The upholstery element and the chair element are both individually configurable and are freely combinable. Simple change of the upholstery elements, resulting in sustainability, flexibility and economy.

Maximum liberty of action. Offers elbow-room without having to sacrifice the support of the back.

The seat automatically encourages the correct posture and upright, healthy sitting.

The round front edge of the seat prevents blocked circulation in the thighs.

Sustainability, flexibility, economy, individuality and changeability

The upholstery is breathable and assimilates and releases humidity. The particularly soft cover guarantees a maximum sitting comfort and a pleasant sitting climate.

The soft and comfortable upholstery offers a very high sitting comfort. However, damages caused by sharp parts can not be excluded. Ideal for the use in production and laboratory.

The use of integral foam is recommended for work environments where the chair is in contact with aggressive substances. The surface is insensitive, extremely robust, washable and simple and easy to clean

Very resistant against sharp objects.

New cussion material for comfortable and robust workplace chairs in production areas.

Offers an excellent sitting comfort thanks to a breathable lower tissue. Resists damages caused by sharp parts

through the use of protective studs on the surface.

The seat height adjustment can be adapted to the body

The seat height adjustment can be adapted to the boo size and the height of workbenches. Wide range of height adjustment.

Ergonomic package

Synchronous mechanism (0-23°)

The inclination of seat and backrest is automatically adjusted in line with the user's current posture. This results in dynamic sitting, which relaxes the muscles, relieves strain on the intervertebral discs, improves circulation and boosts concentration and performance considerably.

Weight regulation from 50 - 120 kg

Individual adjustment of the backrests and the backpressure to size and weight of the sitting person.

Seat inclination adjustable up to 9°

Avoids a tilt-back of the hips in a bending forward position. The bigger seat angle between the thighs and the upper body additionally relieves the organism.

Shiftable seat for individual adjustment of the seat depth (60 mm)

Aluminium, powder coated, black. Flat design.

Matches the depth of the seat to the size of the body, giving the best possible contact surface fort he thighs.

Backrest height adjustment easily and conveniently to operate, also in a sitting position (60 mm)

Ensures best possible support of the back - especially in the lumbar area.

Quick adjustment

Adjustment possible for small and tall sized people.

Quick aujustinen

Every function can be operated easily and comfortably in

a sitting position.

Anti-shock lock

The backrest cannot accidentally spring forward even

after the lock has been released

Very high stability, longevity and steadiness. Flat design

prevents stumbling hazard.

Glides Wear proof plastic glides with a large surface

area.

Offer a superb level of stability.

Foot rest

Base

A very large, height-adjustable foot rest

The foot rest rotates with the seat height adjustment as well as when the seat is swivelled. The very large step provides good grip and can be folded upwards by 90°.
