Plaid

Design Form Us With Love

Plaid skriver om reglerna för hur avskärmning och absorber ska se ut, i serien finns allt från standardapplikationer som fristående skärmlösningar till det lekfulla Plaid House.

Plaid sets a new standard for the divider and absorber category. The family consists of the standard application; freestanding, but then we have added hanging versions and the spectacular Plaid House.

Plaid är tillverkad av laminerad filt och tyg.
Plaid is made from laminated felt and fabric.

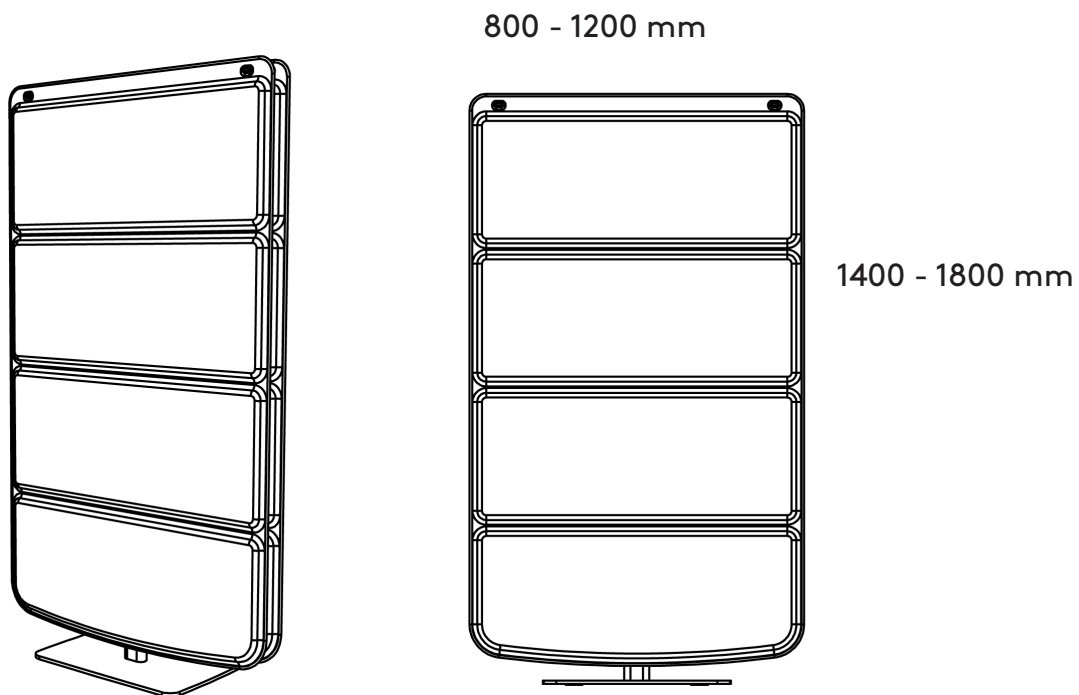

De hängande panelerna är en spännade absorber som fyller sin funktion utan att ta onödig plats på golvet.

The hanging panels is an exciting absorber that fulfills its function without taking up unnecessary space on the floor.
