

**characteristics Isitec 2 with castors**

Article: 9608 integral foam

Dimensions in mm	Backrest:	H:	340
	Seat:	H:	430-600
		B:	440
		T:	410
Packing data	Weight	kg	12,0
	Volume	m <sup>3</sup>	0,13

**Base equipment**

**Benefit**

Backrest	Ergonomically designed, high backrest to take the strain off the spine and muscles This is achieved by means of its special shape: wide at the bottom and narrow at the top  Backrest height adjustment convenient and easy to handle in sitting position  Carrying handle integrated	The backrest optimum support for your lumbar region whilst allowing your arms and upper body the space and freedom they need higher up in order to move around  The amount of the support can be provided in accordance with the user's body size  Suitable to handle the chair more easily
Seat	Ergonomically designed, extra high seat. With rounded front edge	The round front edge of the seat prevents blocked circulation in the thighs
Seat and backrest design	Integral foam (PU): The new developed SoftTouch integral foam provides the ultimate softness in seating, is washable and resistant to external influences Colour: Black (2000)	The use of integral foam is recommended for work environments where the chair is in contact with aggressive substances and sharp parts
Seat height	Stepless seat height setting from 430-600 mm supported by safety gas spring with protective cover	Seat height can be adapted to nearly 95% of all body sizes, the cover protects the gas spring from dust and dirt
Technology	Permanent contact backrest with additional seat inclination adjustment  Quick adjustment	This mechanism ensures that the backrest responds immediately to any movements of the upper body by following them. Thus, the back remains supported all the time. The backrest can also be locked into any tilt position if required  There is a continuously variable mechanism for tilting the seat forwards. This ensures that your posture remains relaxed even when you need to bend forwards into your work. Less pressure is exerted on the thigh area, which encourages steady circulation. The problem of sitting all hunched up is masterfully avoided thanks to a mechanism that ensures a minimum angle of 90° between your legs and upper body at all times  Every function can be operated comfortable and easy in sitting position
Base	Black 5 star base made from plastic. Flat design	Very high stability, longevity and safety Flat design prevents stumbling hazard
Castors	Dual-wheel safety castors with load-sensitive brakes, For hard floors as standard	Chairs are braked when not used which decreases the accident risk
Materials	All materials are separable and recyclable.	Environmentally friendly.
