Model L - living room examples

Flexible headrest

Every article is equipped with stageless headrest adjustment for standard.

Seat-/Back heights

The ML55. armchair has a taller back cushion of approx. 4 cm. Three seat heights can be chosen for each armchair and have to be indicated. That results of a taller leg. See order information.

Seat- /back adjustment

The articles have a manual seat- /back adjustment for standard. For surcharge the function is available with motor. See order information.

Combined back- /armpart function

For surcharge the articles can be equipped with the combined back-/armpart adjustment. See order information.

The right spin

For an extra charge the armchair can be equipped with a metal turntable.

Order information

Seat-/back adjustment:

The backrest lowers, the seat glides and lowers backwards at the same time. The legrest comes up. The angle between the backrest and the seat keeps the same. Three levels are available.

Manually with vapour pressure (standard/inclusive):

By using a lever at the side you can additionally lower the backrest stagelessly by body pressure. The seat and legrest does not change. The desired seat position can be fixed.

Motorized adjustment (for surcharge):

For surcharge the seat-/back adjustment can be ordered with motor (F20), motor with battery pack (F30), double motor (item no. = F40) or double motor with battery pack (item no. = F70). A combined back-armpart-function is available for surcharge. Thus the armparts glide backwards together with the back lowering (RSF). The function is only available in connection with the motorized seat-/back adjustment with double motor (F40) or with double motor with battery pack (F70).

Standard armchair = vapour pressure function with lever

Please indicate when ordering!

F20 (surcharge) = motor

F30 (surcharge) = motor with battery pack

F40 (surcharge) = double motor

F70 (surcharge) = double motor with battery pack

RSF (surcharge) = combined back-/armpart function - **only available with F40/F70**

Adjustment by motor:

Please pay attention that with using the adjustment by motor with battery pack the battery has to be charged completely every 4 to 6 weeks, also if the function wasn't

used regularly.

Rotary limitation:

The armchairs with stream supply by net cable are defeated by a rotary limitation to maximum 355° what serves for the protection of the net cable.

Armchair sizes:

MS50. - individual armchair "small" - seat width approx. 50 cm, standard back height

MM50. - individual armchair "medium" - seat width approx. 50 cm, standard back height

ML50. - individual armchair "large" -seat width ca. 55 cm, standard back height + approx. 4 cm (hoch), seath height tall (+ approx. 6 cm)

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height. The measures refer to the small leg height.

Seat depth: ca. **54 cm**

Total depth with function:

MS50. and MM50. approx. **165 cm**

ML50. approx. **167 cm**

Seat width:

MS50. and MM50. approx. **50 cm**

ML50. approx. **55 cm**

Seat height: approx. **46 cm/ approx. 49 cm/ approx. 52 cm**

Model-specific qualities:

The upholstery of this model has intentionally been made loosely to create a certain visual effect. This is not a quality defect but a model-specific characteristic that guarantees optimum seat comfort.

Order checklist

- Cover
- Leg design/-height
- Metal colour for legs
- Seat- /back adjustment manually/by motor (surcharge)
- Combined back- /armpart function (surcharge)
- Swivel base (surcharge)

Upholstered furniture frame structure

2. **Seat suspension** with permanently elastic wave springs
3. **Seat upholstery structure** of ergo-PUR-foam with diolen cover
4. **Back suspension** with suspension and ergo-PUR-foam
5. **Back upholstery structure** of ergo-PUR-foam with diolen cover

The design of the cross section shown here does not correspond to the model on this page of the catalogue.

Upholstered furniture made with passion.

Your model is the product of German design and engineering. The family-owned company W.SCHILLIG has more than 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.

Legs
